

# EOSG

## Ecosystem Observation Steering Group

Scientific Committee  
(SCICOM)

## RESEARCH FOCUS

- Evaluation and optimization of survey design to meet the needs of member countries and support advisory requests.
- Identification and evaluation of new technologies for observation and monitoring
- Development of monitoring to meet emerging data, science and advisory needs, with a focus on integrated ecosystem assessment and ecosystem-based management

## OUR OBJECTIVE

The Ecosystem Observation Steering Group is responsible for guiding and supporting expert groups that are meeting immediate data demands and contributing to the running and further development of effectively coordinated, integrated, quality assured, and cost-effective monitoring in ICES region and beyond.

## OUR EXPERTISE

- Design, planning, and coordination of egg and larval, acoustic, and trawl surveys.
- Sampling methods, means of data collection, and use of resulting data for assessment and advice.
- Aging and estimating life history parameters of sampled fauna.
